A fully charged case can recharge your headset fully two times for an additional 14 hours of headset talk time. IMPORTANT The charge case is placed in deep sleep mode after manufacturing to save power and protect the battery. To wake-up the charge case, plug it into a power source for a minimum of 1 minute. The LED's flash when charging. Check the charge case battery status by pressing the button on the side. Battery status LEDs for charge case Battery high Battery medium Battery low Battery critical; Recharge case/headset NOTE Charge case is sold separately. Visit plantronics.com/accessories for more information. 8 As user, you should always be well aware of the battery related functions of your headset. If you do not have enough awareness, you would face problems when the headset suddenly runs out of power. In case of Plantronics headsets, users are at ease as they do not need to remember a large number of options. Other than that, they also do not need to go through complicated technical features. For instance, if your headset would be low on battery, you would get to know about it through indicator lights or by the help of an audio alert. The Plantronics voyager headset offers a lot more to the user other than mere internal battery talk time. This headset has a charger case which can be used to recharge the internal battery of the headset when it is low on power. Key points of Plantronics Bluetooth headset voyager legend charge case manual While using your Voyager Legend, you need to keep your eyes open for the necessary indicators. For instance, if the headset internal battery has been charged fully, the blue indicator light would flash three times. This would give you an indication that the headset does not need to be charged anymore. There are similar indicators for low battery as well. If you start running out of battery, the red indicator light would flash. When the red light flashes three times, it means that the headset battery is critical and you should recharge it on immediate basis. Being aware of these indicators would prove to be very helpful for you as you would not get stuck when you are in the middle of an important call. One of the key of a Plantronics headset is that it does not require a long span of time to be recharged. This proves to be very helpful for people who need to use the headset for long durations and do not have the time to recharge their devices. As soon you see that the headset battery is low, you can connect it to the charger. Most headsets get charged twenty percent or even more in 15 minutes. Some headsets by Plantronics come with a charging case. This is a case that can be used to charge the headset when the internal battery has been consumed completely. However, as a user, you should be aware of the key points related to the charging case. For instance, you need to know about the time span that would be required to charge the charging case 100%. How can a charging case prove to be helpful? There is no doubt that a charging case can actually be a life saver at times. This case is used to recharge the battery of your headset when it has been consumed completely. For instance, consider that you have an important conference call and your headset is low on battery power. It is obvious that you would connect your headset to the charger. However, if you do not have the charger or the facility to recharge the hearing device, you can end up in a lot of problem. On the other hand, if you have a headset with a charging case, you would be able to recharge the internal battery in due course of time and continue your work. Plantronics is one of the few headset companies that offer hearing devices with a charging case. If you go through Plantronics Bluetooth headset voyager legend charge case manual, you would figure out that this charging facility is very similar to use. Along with that, these charging cases do not require lengthy spans to be recharged. If you have a fully charged case, you would not have to count on the internal battery of the headset. As soon as the internal battery is consumed completely, you can connect it to the charging case and the battery would be charged again. Additional talk time due to the Voyager legend charging case The Voyager Legend charging case increases the talk time of the headset by a big margin and this proves to be beneficial for the user. By default, the internal battery of the Voyager Legend provides a talk time of 7 hours after you have charged it fully. This simply means that you would not have to connect the headset to the charger for 7 hours after it is completely charged. However, if you have a charging case that is fully charged, your total battery talk time would be 21 hours. The charging case increases the battery talk time by 14 hours which is quite impressive. If you are a corporate professional and looking for a headset that offers attractive battery life options, the Voyager Legend would surely work perfectly for you. Having a talk time of 21 hours simply means that you would not have to worry about battery issues for one working day or even more. Plantronics headsets do not need to be charged on frequent basis. Get customer support at any hour As a customer, you may have questions related to the internal battery or the charging case of the headset. We are open to customer queries at all times. Thus, at any hour, if you have a question, you can get in touch and out representatives would provide the needed assistance to you. We do not provide customer support for a fixed number of hours only. At any hour of the day, you can contact us and we would help you out with your queries. As a customer, you can get in touch by sending us an email, chatting with one of the representatives online or making a call on the toll-free number of Plantronics. As a headset company, Plantronics aims at offering proper support to the customers whenever the need is there. Thus, customers can get in touch for help whenever they need their questions to be answered. Plantronics Voyager Legend Charge Case for the Plantronics Voyager Legend and Voyager Legend UC Charges your headset while you store it Protects your headset from being damaged Headset is Not Included Internal battery will charge up your headset for 14 hours of talk time\$77.50 + VAT\$Save + VAT Call 01675 432 123 for Availability It is important for a user to check the reputation of a company before he selects it for buying a headset. Simply giving priority to the price that has been mentioned online is not the correct approach. Plantronics is a quality concern and works with a very sincere approach. The quality produced by this company is actually incomparable and most companies only talk about producing such standard. The company deals with both wired and wireless headsets that are recommended for corporate purposes, gaming and various other purposes. Based on your requirements, you can select a Plantronics headset that matches your needs.The Plantronics Voyager Legend CS Bluetooth headset is one of the finest hearing devices produced by the company and it includes some of the most advanced features to match the requirements of today.Dependable noise cancellation featuresSennheiser VMX 200 Mobile Headset User Guide; Plantronics Voyager Pro HD Mobile Headset User Guide. /poly voyager 8200 uc bluetooth headset plantronics/poly voyager edge bluetooth headset plantronics/poly voyager legend cs bluetooth headset plantronics/poly voyager legend uc bluetooth headset poly/polycm studio poly/polycm trio 8500 ip. The Voyager Legend charging case #89036-01 keeps the Plantronics Voyager Legend (CS and UC versions) charged on the go with the pocket-sized charging case, the perfect accessory for storing, protecting, and recharging your headset.Noise cancellation is an important feature that eliminates the dependence that a user has on the environment around him. For instance, if you have noise around you, it would be hard for you to hear what the person at the other end is saying. On the other hand, if you have a headset with noise cancellation facility, all the sounds in your background would be completely blocked. In this way, your important calls would not be disturbed by any kind of background sounds.The Voyager CS Bluetooth headset has one of the finest noise cancellation features. For instance, consider that you are standing in a noisy place and you need to make an important call. If you are using a Voyager CS headset, you do not even have to think about the environment that is present around you. Even if you have cars making a screeching sound, you would be able to make your call because the Voyager CS completely blocks the loudness of sounds without any problem. This feature is a big advantage when you have to handle work-related calls while being in noisy places. Some professionals continuously work in a noisy environment and they need to handle important calls at the same time. The Voyager CS is a highly recommended headset for all such professionals who need to filter out the worst of background noises. For instance, if you are working in a brokerage house, you would have a lot of people talking on the phone around you. If you have to attend an important call, it would become quite hard for you because you would have a noisy environment. However, if you are a voyager CS user, the environment would not affect you in the first place as all the sounds in the background would be blocked completely. Apart from people working in the brokerage industry, the Voyager CS is an ideal headset for various other professions including customer support and project management.Highly comfortable to wearUsers normally opt for wireless headsets so that they can wear it for long hours. This is a requirement if you have to use a headset at work. If you are using the Plantronics Voyager CS Bluetooth headset, you would be able to wear it for long hours without getting exhausted. The Voyager CS is light in terms of weight and corporate professionals can easily wear it for long durations at work. Even if you wear it for the whole day on all 7 days of the week, you would not get exhausted in any manner.To wear a wireless headset for long spans without any problem, it is mandatory that the headset should have a good grip. Unlike Plantronics, the headsets produced by various other brands fail to provide a good grip to the user. The Voyager CS has an impressive grip and users can wear it for the whole day without the headset coming off in any manner.Level of Voice ClarityPlantronics headsets provide amazing voice clarity to the users so that they do not have to go through any audible issues while communicating. The Voyager CS is one of the best headsets in terms of voice clarity. Even if you attend a call while being at a distance from the base, the voice of the caller would be completely clear to you. Even when you are listening to audio files, there is no sound distortion. If you are seeking a headset that does not have any problems related to voice clarity, the Voyager Legend CS is one of the most suitable hearing devices for you. Professional customer support by Plantronics Customers cherish various features when they are going through the selection process of a headset. While they are checking the features, they do get confused and need professional help. Plantronics has a special team that helps the customers round the clock.The support team of Plantronics operates on a global scale and is available round the clock. As a customer, you do not have to worry about the time factor. If you feel that you are unclear about something, you can get in touch with one of the support professionals and proper help would be provided to you. Plantronics does not delay the response of customer queries for any reason. Once you send a query related to your Voyager CS headset, a support professional would provide you with the response in the shortest possible time span. You can also contact the support team through live chat options and by calling the toll-free number apart from sending an email.Talk time that is hard to findPlantronics Headset Voyager Legend CSA headset is simply good for nothing if it has to be recharged after short spans of time. A lot of headsets that promise to last for long hours run out of battery after short intervals. However, if you have the Plantronics Voyager Legend CS Bluetooth headset, you would not have to recharge the headset every now and then. Due to its impressive talk time, it is recommended for corporate usage.The Plantronics Voyager Legend CS Bluetooth headsetcan be used on the continuous basis for a span of 7 hours which is quite impressive. While being at work, it is important that you have a talk time of 7 hours or more so that the device can be used for the entire day without any problem. When you are busy performing work-related tasks, it would be hard for you to stop them and connect your headset to the charger. If you are using the Voyager Legend CS Bluetooth headset, you would not have to go through this problem in any manner. The time required to recharge the Voyager CS is much less than what other headsets require. It is not one of the headsets that need to be connected to the charger for long durations when it runs out of power. For instance, once the headset is fully charged, you do not need to be apprehensive that it would run out of power when you are at work. As it has a good talk time, it is preferred by corporate professionals. The Voyager Legend CS has a standby time of 11 days. It goes into standby mode as soon the user stops using the headset.This headset has a charging case that enhances the battery time by 14 hours which is quite incredible. Thus, if the internal battery of the headset and the charging case are both fully charged, you do not have to worry about any talk time problem for more than one day. Corporate executives who need to use their hearing devices for long durations find the Voyager CS highly suitable.Fluke linkrunner at 2000 user manual pdf. Make your life extremely easy with smart sensors At times, you may have such a busy schedule that even using controls would prove to be hard for you. To level, managers have very exhaustive schedules and they prefer headsets with smart sensors. If you have a similar requirement, the Plantronics Voyager CS Bluetooth headset is definitely a suitable option for you.If you are using this headset, you would not have to search for buttons when there is an incoming call. As soon as you would put the headset on, an incoming call would be directed to you. In other words, you would not have to use any controls to answer the call.During busy schedules, this is a very good option as users do not have to locate controls when they receive a call. As soon as the user wears a headset, the sensors are activated; he receives an incoming call without any kind of problem.For corporate professionals, it is important that the headsets which they use fulfill their corporate needs in every way. The Voyager CS is a high standard headset that fulfills business needs without any problem. For instance, when there is an incoming call, you would not have to stop what you are doing and then search for a control. Through automatic sensors, you would receive the call without the use of any controls.Get your queries answered when the need is there(Requires Spotify Premium account for full features).Control much morePlay songs, check news and traffic, manage smart devices and enjoy all those other helpful Amazon Alexa skills using a single Sonos One speaker.With Apple AirPlay 2 for seamless streaming from your Apple deviceWith AirPlay, stream directly from your Apple devices or ask Siri to play your favourites from Apple Music throughout your home.Control any way you wantSonos One seamlessly syncs voice, app, and two commands, enabling you to manage music with a single word, tap of the app, or swipe on the speaker touch panel. Combine voice control with the Sonos app to manage all your music in one place.The TRUEPLAY revolution - giving you tailored soundThe Sonos One also features revolutionary TRUEPLAY technology. Sonos one gen 2 user manual.Every customer has questions when he is going through headset options and even after that. It is hard for him to make a decision about buying a headset until the queries have been answered. Plantronics makes sure that customers do not have any unanswered queries at any time.The support team of the company works round the clock so that customer queries can be answered at all times. Even if you have questions after the Voyager CS headset has been delivered to you, you can send an email or communicate with the support representatives through the live chat option.The support team of Plantronics is not inexperienced in any manner. The company sends replies to emails in the shortest possible time spans without any delays. In addition to that, the support team is there to help the customers with all kinds of warranty claims as well.If you think that there is a problem with your Voyager CS headset and it is under warranty, you can get in touch with the support team and your problem would be solved within no time. The support team of Plantronics is experienced and ensures that all kinds of queries are resolved at the earliest.Highly helpful automatic voice alertsThere are very few headsets that have automatic voice alerts so that users do not have to check things in a manual manner.With the help of voice alerts, you can know about the name of your caller without even looking at your smartphone. For instance, if you are busy in a meeting session and you have an incoming call, you can decide whether you want to take the call or not simply by listening to the name of the caller. This is a much easier option than leaving an ongoing task to check who is calling. Thus, if you are using the Voyager CS headset, you would not have to check the name of the caller.Checking the battery status of a headset can also prove to be a time-consuming task. While being at work, you may not be able to leave what you are doing and check whether you are running out of battery power or not. As soon as your headset would start running out of battery, you would be notified of the help of an automatic voice alert. When you have a busy schedule, this feature can prove to be immensely helpful.The Plantronics Voyager Legend CS Bluetooth headset has a proper system of voice commands with the help of which you can use key features related to the headset. For instance, if you want to redial a number, you do not have to press any buttons. You can simply give a voice command and the number would be dialed again. Similarly, to check the status of your headset battery, you would not be required to have a look at your headset. By giving a simple voice command, you can determine the battery power that you have left.Plantronics Voyager Legend UC wireless computer headsetsPLANTRONICS SCMI0325VRP Voyager Legend Bluetooth.
